PIPES FOR LIFE

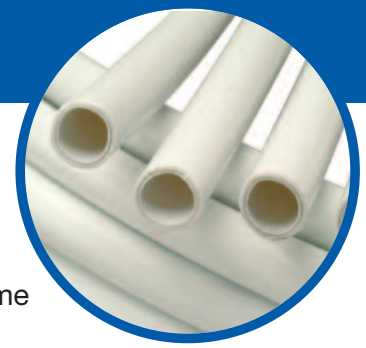

MEET THE PIPELIFE FAMILY

QUAL-PEX

RANGE

Trusted by Installers for over 45 Years!!

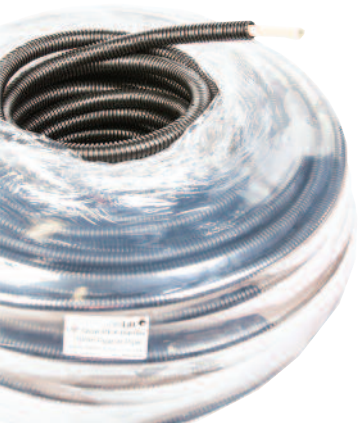

At Pipelife we actually care about the quality and performance of our products. For over 45 years Pipelife have been producing quality goods for the Plumbing, Construction and Agricultural sector, specialising in the extrusion of polyethylene pipe for these applications. Our product range has evolved over time and continues to change to provide our loyal customers with the most advanced products relative to their sector.

Qual-PEX Barrier Pipe is available in a variety of coils and straight lengths. Available in 10mm, 15mm, 22mm & 28mm. This extensive range of pipe offers installers the solutions they need. With full BS7291-Class S and WRAS approvals, specifiers & installers can have full confidence in the quality and reliability of this range. Plus comes with an Unbeatable 50 Year Guarantee. The only difference is the price.

Qual-Pex Barrier Pipe

- First PEX Pipe** - ever to have been approved to the BS 7291 Kitemark and WRAS approvals. Since then over 800,000,000 metres of Qual-PEX, 20 times the circumference of the earth, has been supplied to over 30 countries worldwide.
- Tough, Dependable, Flexible** – Our Qual-Pex Pipe is amazingly reliable & incredibly efficient.
- Compatible** – Qual-Pex Pipe is compatible with other BS7291 specified systems.
- EVOH Barrier Layer** - incorporates an EVOH oxygen diffusion barrier layer sandwiched within the wall of the pipe, which protects the layer from physical and UV damage. The EVOH layer renders the pipe virtually impervious to gases. Barrier complies with DIN 4726.
- Rigid** - enough to minimise sag with pipe runs looking neat, tidy and professional.
- Flexible** - to be cabled through awkwardly placed holes under flooring and threaded behind partition walls and through ducts.
- Qual-PEX enables** - the installer to undertake faster, easier and more cost-effective installation.
- Highest Quality Standard** – Our Qual-Pex Pipe is manufactured according to the most stringent standards and is tested & certified - according to BS7291 class S and DIN 16892.
- Market Leading Guarantee** - 50 Year Guarantee. Specifiers & installers can have full confidence in the quality and reliability of this range.
- Savings & Quality** – is what Qual-Pex is all about

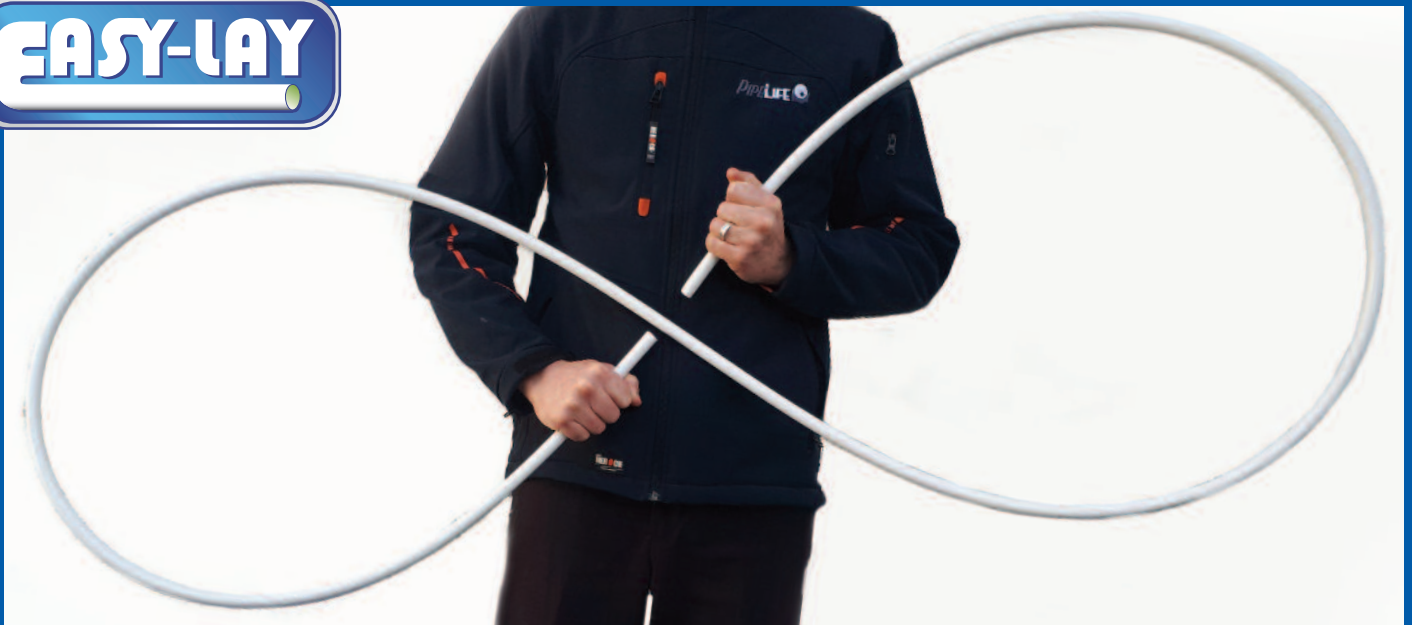

Qual-Pex Pipe in Pipe

- Qual-PEX 15mm & 22mm pipe as per above specification but supplied ready-installed into a corrugated outer.
- Ideal for installation in screeds and walls where there is a standard requirement to be able to withdraw the PEX after installation.
- Corrugated pipe diameter is 25mm on all sizes.
- Simply uncoil, cut and install - No messy installation of the pipe in the conduit
- Saves you time, money and an environment where the chance of leaks are all but eliminated

Make the Switch Today to a Quality Product

EASY-LAY

Why are so many merchants and installers switching to Easy-Lay PB Barrier Pipe?

At Pipelife we have nothing against the old ways, but faster is faster, and better is better. Our tried and tested High Quality Easy-Lay PB Barrier Pipe is compatible with other BS 7291 specified systems and is manufactured to the same specification as other like brands. Plus comes with an unbeatable 50 year guarantee. The only difference is the price.

Pipelife Easy-Lay PB Barrier Pipe
